TECHNICAL REQUIREMENTS

Two 3' by 6' (or close -- rectangular) tables in performance area, two chairs

Artist Carries amplification but prefers, if possible, to use a house system. If venue is providing amplification, artist can still supply own boom-stand and mic, and 15 foot XLR mic cable.

Cube ice on site (please inform if ice is not available).

Schools: Media center or quiet auditorium suggested, cafeterias should be made as quiet as possible. Performance *in front* of stage is best for sight lines.
